

## reveal

[/Reference manual](#)/[Z-related commands](#)/[In situ replacement commands](#)

The *reveal* command is applicable to ... (elided formulae) and causes the previously *concealed* part of a goal to be resurrected.

### 1. Tactic example

*“reveal” p e*

This example applies the *reveal* command to predicate *p* and expression *e*. Its use in tactics typically arises from recording scripts.
